Our February mystery quilter still has the first quilt she ever made. She describes it as "pathetic" and uses it in her camper. She must plan to live a long time because she claims to have *hundreds* of unfinished projects. In her spare time when she is not trying to make a dent in her ufo's she cans the fruits and vegetables that she grows, enjoys river rafting, rides her motorcycle and asks her husband lots of questions about being a cowboy. Can you guess who our mystery person is?
